

HOOF BIOTINE

Hoof, coat and mane health

Nutritional supplement for horses for healthy hooves, skin, mane & tail.

1. Horn regrowth: D-Biotin, Copper and Zinc allow the synthesis of horn components. Recent work recommends a daily intake of 20 mg Biotin for several months to promote horn regrowth.

2. Horn strength: the resistance of horn structural proteins is reinforced through the contribution of sulphur (MSM, Cystine and Methionine) and amino-acids.

3. Skin, mane & tail health: contribution of Vitamin A, Niacin, Pantothenic acid and Folic acid.

4. Improved foot internal circulation: thanks to the contribution of Ginkgo biloba, Chrysanthellum, Arginine, Aniseed and Hawthorn. The improved blood irrigation allows optimum and immediate contribution of essential elements, along with tissue oxygenation.

Uses

- Maintenance of horse foot health.
- Support for treatments prescribed by the veterinary surgeon in the event of navicular disease or laminitis.

Composition for 1 kg

D-Biotin	800 mg	Pantothenic acid	4 000 mg	L-Tyrosine	1 500 mg
Zinc	40 000 mg	Choline ChL	1 250 mg	Ginkgo biloba (E)	50 000 mg
Copper	3 000 mg	Inositol	750 mg	Chrysanthellum (E)	30 000 mg
Vitamin A	500 000 UI	DL-Methionine	120 000 mg	Aniseed (E)	5 000 mg
Vitamin C	5 000 mg	L-Arginine	60 000 mg	Hawthorn (E)	5 000 mg
Niacin	5 000 mg	L-Cystine	30 000 mg	Methyl-Sulfonyl-Methane	125 000 mg
Folic acid	1 500 mg	L-Proline	1 250 mg		

E : Extract

Instructions for use

25g (1/2 dose) per horse per day, i.e. a daily intake of 20 mg pure Biotin.
Ask your vet for advice.
